Hire the best”

Wood-in-the-Box

Wood-in-the-Box (abbreviated as WIB) is a curriculum guidelines resource designed to help educators deliver the WoodLINKS wood products manufacturing courses. WoodLINKS USA staff and program supporters have gathered the contents of WIB to enhance delivery of the curriculum guidelines. Contents include technical manuals, texts, reports, trade journals, technical articles, and video/workbook resources. The contents of WIB are reviewed on a regular basis to ensure continued relevance to the curriculum and currency of topics. This "core library" of material is available to registered WoodLINKS sites at special "education" pricing and to others on a cost recovery basis. Reference to these resources and how they support suggested instructional strategies to satisfy various prescribed learning outcomes is contained in the WoodLINKS Wood Products Manufacturing Curriculum Guidelines Package.
