

MATC Acquires CNC Machining Center

Madison Area Technical College is pleased to announce the acquisition of a Busellato Jet 100 CNC Machining Center through a partnership with Delmac Machinery Group. This state of the art machine will now make it possible to train our students in advanced manufacturing methods. The Cabinetmaking & Millwork program at MATC offers a one year technical diploma, preparing shop level employees for the Wood Industry. MATC is also a post-secondary member of WoodLINKS USA.
